

Disirable - why do people want it?

- Fixes your eyesight
- Easy to use
- Painless
- Practical
- childrens eyesight is deteriorating rapidly due to technology advances, this product stops that instantly.

Unique - how is it different

- Instead of the tiresome work of putting contacts in or wearing glasses all you need to do is to scan your eyes once a day and you would have 20/20 vision

Value - why would someone value it

- Makes people happy because they don't need to waste time putting contacts in or wear glasses while playing sport.

My Statement

My product is a device that scans your eyes and correct your vision.
